## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election of Species I (Fig. 1), with traverse, in the reply filed on February 19, 2007 is acknowledged. Because Applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP §818.03(a)).

### ***Drawings***

The drawings are objected to under 37 CFR 1.83(a) because they fail to show details described in the specification. For e.g. Figures 11A and 11B do not illustrate "retractable extensions." Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). Applicant is requested to check all drawings and provide clear illustrations of all features described in the specification. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement-drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 are rejected under 35 U.S.C. 102(b) 'as being anticipated by Hedman et al. (US 4,759,769).

Hedman et al. disclose an artificial disc including: two endplates (30, 48); a cushioning component 72; and anterior (74) and posterior (66) features that permit predetermined, limited movement of the endplates relative to one another (Figs. 1, 10 and 16, col. 2, lines 44-68, cols. 3-5 and col. 6, lines 1-32).

Regarding claims 6, it is noted that the axles include a posterior axle 66 and an anterior axle 72' (Fig. 9).

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
